

WE'RE DIGGING DECOMPOSERS! ACTIVITY SHEET

Name: _____

Date: _____

Head outside to the Urban Demonstration Garden and find the composting bin pictured on the back. Using the tongs, gently lift the layers in the bin to investigate. How many of each decomposer below can you find? Make tally marks or dots to record the data.

Fruit Flies:

Worms:

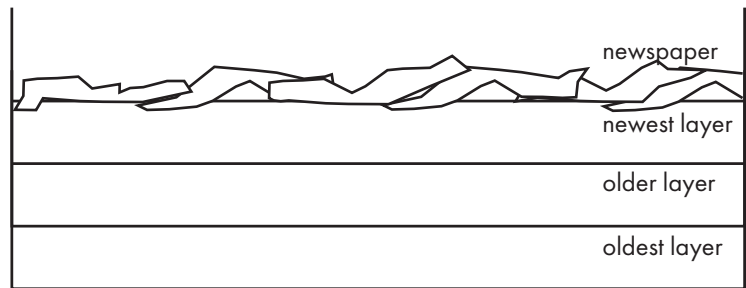

Pill Bugs:

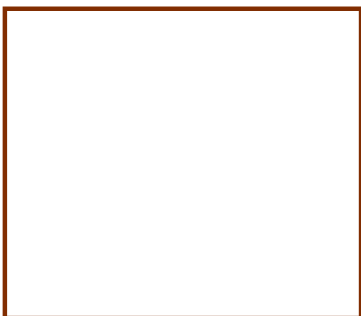

Mites:

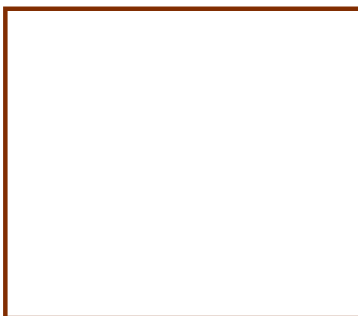

Where was each decomposer found in the layers of compost? Draw lines to the layers.

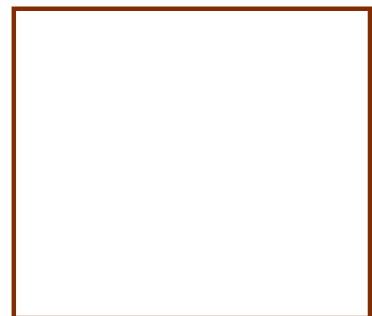

Find a decomposing fruit or vegetable you can identify. Draw a picture to show what it may have looked like before decomposing, now, and in the future!

Before
